### Services Offered
- Site Installation, Engineering & Design, Transportation & Delivery, Camp Operations & Maintenance, Power Generation, Water treatment, Sewage Treatment, Communication Services

### Key Challenges
- Construction of an initial Camp Site facilities on a remote grassroot location.
- Extremely remote desert location approximately 1800 KM from Factory which tested our mobilization and logistical capabilities.
- Stringent compliance with International Building Code (IBC), National Electric Code (NEC), Saudi Arabian Standards Organization (SASO)
The Need

Ma'aden was looking to partner with a company who can facilitate the King Abdullah Project by providing them with turnkey construction of professional camp facilities for Saudi Arabian Mining Company.
The Project

Red Sea Housing Services has agreed a deal with Saudi Arabian Company Ma’aden to provide a camp for senior executives at the new mineral industrial city at Waad Al Shamal. The site will be home to, where a mine and a $7bn phosphate plant are being built to manufacture a range of fertilisers and other projects. The camp will have a capacity to house 400 executives and provide all of the necessary services including fresh water, electricity supply, waste water treatment, cleaning, indoor and outdoor recreation facilities. RSHS has built its Sitemaster-III Series building including utilities, amenities such as satellite TV, Telecom, Wireless Internet, Gymnasium, Indoor & outdoor sports facilities complete with camp operations and maintenance services.
Executive rooms
Highlights of the project
